Please reference the attached sheet for details relating to the date of action.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ For the dividends from January through August noted above, 38.00% of each such dividend was a return of capital in accordance with IRS Section 301(c)(2). Accordingly, the shareholder would reduce each share of their tax cost basis in the PCF stock by the portion of each distribution determined to be non-taxable return of capital.
