

High Income Securities Fund, Inc.

November 28, 2025

19a-1 Notice

As previously announced, High Income Securities Fund, Inc. (NYSE: PCF) (the “Fund”) intends to make monthly distributions at an annual rate of at least 10% per annum (or 0.8333% per month). The distributions for 2025 are based on the net asset value of \$7.11 of the Fund’s common shares as of the last business day of 2024.

As a general matter, the amount of distributable income for each fiscal year depends on the aggregate gains and losses realized by the Fund during the entire year. Distributions may consist of net investment income, realized capital gains, capital gains distributions from portfolio companies, and return of capital, but the character of the Fund’s distributions cannot be determined until after the end of the Fund’s fiscal year.

The Fund estimates that this distribution will exceed its income and capital gains; therefore, a portion of this distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with ‘yield’ or ‘income’.

Under the Investment Company Act of 1940 (the “1940 Act”), any distribution made by an investment company, including amounts from sources other than net income must be accompanied by a written statement disclosing the source or sources of such distribution.

The following table sets forth an estimate of the sources of the November 28, 2025, distribution and of distributions paid in the current fiscal year:

Distribution Estimates	November 2025		Fiscal Year-to-date (YTD) ¹
